Summer 2009

Dear Clients,

This years boating season is up and going full strength. For most of you, your boats are already in the water and you are taking advantage of the summer months. For others, now is the time to get your boat ready for storage. Regardless of your plans, we are always ready to meet your needs.

Hurricane Season

Every year we have a "Hurricane Haul-Out List" for our customers to be placed on in case of a storm coming through our area. Once you are hauled out and the storm has passed, you will have a week to schedule your re-launch. After the week has passed, you will then be charged for either daily or monthly storage depending on your plans. The "Hurricane Haul-Outs" will be charged at our normal haul out rates. I recommend contacting us to be added to our list. This will keep a stressful time less chaotic for you.

Rate Sheet

We have updated our Rate Sheet and it will be effective starting July 1, 2009. While updating our current rates, we have kept in mind the current economic situation and you will see our prices are the same as last year.

Storage Rates

We had some questions regarding our storage rates and the different categories last year. Hopefully we have answered these questions with our new rate sheet. If not, please call us with any questions.

Reminder

We want to remind you of our new ground cloth program. As you know, at every haul out we place a ground cloth for environmental safety under each vessel to keep any contaminants contained. After each boat is launched, we will analyze the cloth to see if it reusable. If it is, we will note this on the customers account and you will not be charged at your next haul out.

In closing we would like to say thank you for your continued patronage throughout the years. We trust you will have a safe summer and look forward to working with you for another year here. As always, any suggestions or comments are welcomed and appreciated.

Happy Boating!
